PROFESSIONAL SUMMARY

Aspiring Full-Stack Developer with hands-on experience building scalable web applications using React, JavaScript, Node.js, and Express. Developed production-style projects in Agile environments, including a capstone application with responsive UI design and RESTful API integration. Strong problem-solving skills with a focus on building efficient, user-focused solutions. Seeking a Summer 2026 co-op to contribute to impactful software development.

PROJECTS

Driver Monitor System – Capstone Project | React, JavaScript, Node.js, Express, Firebase

•Developed a full-stack driver monitoring web app using React and Node.js, improving real-time data processing and user interaction

• Designed and integrated RESTful APIs using Node.js and Express for efficient frontend–backend communication

• Collaborated in an Agile team environment, contributing to sprint planning, feature development, and iterative feature delivery

• Built and deployed multiple full-stack web applications using React and Node.js with responsive UI and RESTful APIs

DBank – Blockchain-Based Web Application | React, JavaScript, CSS, Motoko (Internet Computer)

• Implemented secure transaction logic for deposit and withdrawal operations

• Integrated blockchain smart contracts for decentralized data handling

• Structured application components and codebase for scalability and maintainability

To-Do List Application | React, JavaScript, CSS

• Built a responsive task management application allowing users to create, update, and manage tasks efficiently

• Implemented state management using React hooks (useState) for dynamic UI updates

• Optimized user experience with responsive and interactive UI design

TECHNICAL SKILLS

Languages: JavaScript, SQL, HTML, CSS, Motoko

Frameworks/Libraries: React, Node.js, Express, Tailwind CSS, Bootstrap

Databases/Cloud: Firebase

Tools & Technologies: Git, GitHub, VS Code, Figma

Collaboration & Project Management: Azure DevOps (Boards), Trello, Microsoft Teams

Concepts: RESTful APIs, Agile Development, Component-Based Architecture, Blockchain Development

EXPERIENCE

Customer Service Associate (Part-Time) – Shell, Waterloo, ON | Aug 2024 – Present

• Delivered high-quality customer service in a fast-paced environment, handling high transaction volumes with accuracy and efficiency

• Demonstrated problem-solving by resolving customer issues quickly, improving customer satisfaction

• Collaborated with team members to support daily operations and maintain smooth workflow under pressure

EDUCATION

Bachelor of Applied Computer Science (Honours) | Conestoga College, Waterloo, ON | 2024 – Present

CERTIFICATES

Full-Stack Web Development Bootcamp – Udemy

Figma Essential Training – LinkedIn Learning
